

US 160 in East of Monte Vista

What Work is Being Done?

Crews have completed work on ADA ramps and RRFB Pedestrian Crosswalk System at Lyell Street in Monte Vista. This week crews will begin work to upgrade curb and ADA ramps and sidewalks at various locations along US 160 in Alamosa. The work will begin at the Walmart intersection of US highway 160 and Cielo Azul. A 12-foot width restriction is in place for oversize loads from Monday thru Friday, 7:00 AM to 7:00 PM. Speed reductions down to 25 mph can be expected as motorists come into project work areas. Flagging Personnel will be onsite due to alternating single lane closures. Expect up to 10 minute traffic delays. These closures and delays of US 160 will be in effect between April, 2022 and July 2022.

Why is the work being completed?

The project will ensure that current federal standards, with the Americans with Disabilities Act, are met and maintained for enhanced accessibility and pedestrian safety. “Improving the sidewalks and curb access will benefit Monte Vista’s business district and multimodal needs,” said Julie Constan, the Regional Transportation Director for southwest Colorado. “Complying with ADA standards will make certain all members of the community—whether on foot, wheelchair or bicycle—can easily and readily use highway crossings and intersection crosswalks.”

When will crews be working?

Work will take place during daylight hours, 7am to 7pm, Monday through Friday. Night work and weekend work are not anticipated at this time. **In observance of the Memorial Weekend Holiday the project will be shut down beginning at Noon on Friday, May 27th. Work on the project will resume on Tuesday, May 31st.**

Travel Impacts

- Alternating single lane closures on US 160 in the Town of Monte Vista and on CO 15 as crews form and pour the ADA upgrades.
- Width restrictions of 12 feet will be in place Monday thru Friday, 7:00 AM to 7:00 PM within the project boundary.
- Flagging personnel be on sight to direct travelers as the speed limit will be reduced to 25 mph while working in in town during daylight hours.
